PROJECTS

Redsync PH

Full Stack Developer

Davao City, Philippines
July 2025 – November 2025

- Designed and developed a web-based system for managing and tracking work plans, task progress, and project status
- Created clean and responsive UI components using Tailwind CSS to improve user experience across devices
- Built dynamic features including task categorization (To-do, Ongoing, Done) with real-time updates
- Implemented notification system to track progress changes and improve team visibility
- Designed user flows and interface prototypes in Figma for better usability and navigation
- Integrated Firebase for authentication and real-time database management.

Marian TBI Project Management Information System

Full Stack Developer / UI-UX Designer

Davao City, Philippines
June 2024 – November 2025

- Designed and developed a centralized web application to track incubatee progress, tasks, and resource requests
- Created intuitive UI/UX interfaces in Figma to improve usability and streamline workflow for students and administrators
- Built key features including authentication, role-based access control (RBAC), task management, and real-time notifications
- Implemented dashboards for monitoring project progress, requests, and performance metrics
- Developed communication features such as chat and notification systems to improve collaboration
- Reduced manual tracking processes by introducing automated reporting and centralized data management

EXPERIENCE

University Management Information System (MIS)

Web Developer - Intern

Davao City, Philippines
January 2026 – Present

- Developed full-stack Laboratory Information System using Laravel and Livewire to manage patient records, workflows, and inventory
- Implemented authentication, dashboards, RBAC, CRUD operations, notifications, reports, and PDF generation features
- Designed user-friendly UI/UX in Figma to improve system usability for staff
- Optimized performance by reducing load times and improving patient data handling efficiency
- Collaborated in a two-person team as full-stack developer using Git and Visual Studio Code

EDUCATION

University of the Immaculate Conception

Bachelor of Science in Information Technology, Healthcare Technologies.

Dean's List (2026), A Philippine University Scholar

Davao City, Philippines
2021 - 2026
